

Mattador process inks are our latest development and, as their name suggests, are designed for printing on matt coated papers.

## SPECIAL FEATURES

A special combination of varnishes, together with a unique blend of waxes in the formulation of the Mattador process set, make these inks extremely hard drying offering an exceptional degree of scuff resistance on matt coated papers. The running characteristics of the Mattador inks are as our highly successful Geneva Alcolor range, offering;

- \* CONSISTENCY OF COLOUR THROUGHOUT THE RUN
- \* HIGH GLOSS
- \* RAPID SET
- \* SUPERIOR SCUFF RESISTANCE

At last! Printers can have the confidence that when printing on matt coated substrates the need to seal the printed sheet before despatching to the finishing department can often be eliminated.\*

\* depends on layout

## HEALTH AND SAFETY

All Gibbon products are formulated on non-hazardous, non-toxic materials, but, as with any oil based inks, common sense should be applied when handled. Avoid contact with the skin and eyes. Remove from skin with soap and water and flush eyes with copious amounts of water. If irritation persists seek medical advice.
